

# Guide for Estimating Affordability and Mission-Driven Business for Deliveries (v2026.2)

This is a reference guide for how the percentage Mission-Driven business for an individual deal is calculated. The Multifamily Affordability Estimator (MAE), Seniors Multifamily Affordability Estimator (Sr. MAE), and Manufactured Housing Community Affordability Estimator (MHC MAE) can estimate this percentage for prospective loan deliveries. Please contact your Fannie Mae Deal Team with any questions or [Multifamily\\_Affordability\\_Estimator@fanniemae.com](mailto:Multifamily_Affordability_Estimator@fanniemae.com).

## Special Business Segments with Defined Mission-Driven Criteria

Affordable Business Segment	Percentage of Loan Amount Mission-Driven	MAE Required as Part of Deal Submission?
Targeted Affordable – At least 50% of units have rent and income restrictions Workforce Housing – At least 20% of units have rent or income restrictions	100% of loan amount	Required
Targeted Affordable – Less than 50% of units have rent and income restrictions Workforce Housing – Less than 20% of units have rent or income restrictions	50% of loan amount	Required

### Definition of FHFA Targeted Affordable

- Targeted affordable housing loans are loans to properties encumbered by a regulatory agreement or a recorded use restriction under which all or a portion of the units are restricted for occupancy by tenants with limited incomes and which restrict the rents that can be charged for those units.
- The following are **examples** of loans on targeted affordable housing properties that FHFA will classify as mission-driven:
  - Loans on properties subsidized by the Low Income Housing Tax Credit program, which limits tenant incomes at 60 percent of area median income (AMI) or below;
  - Loans on properties developed under state or local inclusionary zoning, real estate tax abatement, loan or similar programs, where the property owner has agreed to: a) restrict a portion of the units for occupancy by tenants with limited incomes in accordance with the requirements of the state or local program and restrict the rents that can be charged for those units at rents affordable to those tenants; and b) enforce these restrictions through a regulatory agreement or recorded use restriction;
  - Loans on properties covered by a Section 8 Housing Assistance Payment contract where the contract limits tenant incomes to 80 percent of AMI or below. FHFA will not consider a unit that is occupied by a Section 8 certificate or voucher holder as a targeted affordable housing unit unless there is also a contract, a regulatory agreement, or a recorded use restriction; and
  - Loans on properties where a Public Housing Authority (PHA), or a non-profit development affiliate of a PHA, is the borrower, and where the regulatory agreement or recorded use restriction restricts all or a portion of the units for occupancy by tenants with limited incomes and/or restricts the rents that can be charged for those units.

### Definition of FHFA Workforce Housing Properties

- Loans to preserve affordability at workforce housing properties may be exempt from the caps and classified as mission-driven if the property has units that are subject to either rent or income restrictions codified in loan agreements. FHFA will exempt from the volume cap the full loan amount of all loans where the loan agreements require a sponsor to preserve affordability at the “other affordable” market levels outlined below or that adhere to the standard of a state or local housing affordability initiative, for at least 10 years or the term of the loan.

**NOTE:**

- Dedicated Student Housing transactions should be evaluated using the Conventional business segment criteria. Affordability is determined on a unit basis and not a per bed basis.
- Please contact the Structured Transactions team or [Multifamily Affordability Estimator@fanniemae.com](mailto:Multifamily_Affordability_Estimator@fanniemae.com) regarding estimating affordability and Mission-Driven business for Credit Facilities.
- Cooperatives should be evaluated using the Standard Conventional business segment criteria based on the rents from nearby comparable apartment properties. Lenders should use the Targeted Affordable Housing guidance above on Limited Equity cooperatives.
