

The Borrower must notify the Servicer of any proposed condemnation action or other taking of any portion of the Property, regardless of whether the eminent domain process has been initiated or the Borrower has reached an agreement to convey a portion of the Property in lieu of eminent domain. The Servicer is delegated the authority to approve a condemnation only to the extent delegated in this Form.

The key points for the Servicer to consider in reviewing a request for a condemnation are set forth below.

Multifamily Selling and Servicing Guide Reference	Part V: Servicing and Asset Management, Chapter 4
Delegation Criteria	<p>The Servicer is delegated the authority to approve a condemnation or conveyance in lieu of condemnation provided the Servicer completes all the Sections of this Form and answers “No” to all the questions in Part III. The Servicer may attach its own form narrative or memo in place of Section II, provided the memo contains the information requested in Section II and the Servicer completes the remaining sections of this Form. However, the Servicer must notify Multifamily Asset Management before appearing in and prosecuting any legal action or proceeding relating to the condemnation action, or to settle or compromise any claim in the proceedings. Unless otherwise instructed by Fannie Mae, the Servicer must send copies of all legal action notices related to the condemnation action to Multifamily Asset Management.</p> <p>Fannie Mae approval of the condemnation or conveyance in lieu of condemnation is required if one or more questions in Section III is answered “Yes”.</p>
Real Estate Considerations	<p>A condemnation or conveyance in lieu of condemnation increases loan risk as less collateral will support the Mortgage Loan. The Servicer must consider the following factors.</p> <ul style="list-style-type: none"> • What will be the use of the released collateral? • What is the impact to the Property (i.e., marketability, parking, access, amenities, operations, health/safety of residents, etc.)? • Is the released collateral a buffer for a nuisance or negative feature that would now impact the Property? • Is the received compensation fair? • Is the combination of compensation received and Borrower's funds sufficient to restore the Property and mitigate the effects of the taking?
What to Submit	<p>For both delegated and non-delegated requests, the Servicer must complete the relevant parts of this Form, and submit:</p> <ul style="list-style-type: none"> • a signed copy of this Form, including Servicer narrative or memo, if any; • copy of the Borrower Request; and • any other supporting documentation. <p>In addition, for non-delegated requests, the Servicer must submit:</p> <ul style="list-style-type: none"> • copies of relevant documents issued by governmental authority (or others) in connection with the condemnation action, including any Appraisal or valuation estimate; • any correspondence between the Borrower and the governmental authority; • any documents related to temporary access or construction easements associated with the proposed taking; • a legal description of the remaining Property collateralizing the Mortgage Loan after the condemnation action and release of collateral is completed; and • a full explanation of the condemnation action, including information relating to the purpose of the condemnation action, the governmental authority involved, the proposed timing, a description of the portion of the Property that will be affected, the size of any proposed condemnation award, and any other relevant information.

1. Mortgage Loan Information (Include information for any supplemental Mortgage loan)

Servicer	Property Name		
Fannie Mae Loan Number	Property Address		
Other Fannie Mae Loan Numbers	City	State	Zip
Original Underwritten Loan-to-Value Ratio (LTV) and Underwritten Debt Service Coverage Ratio (DSCR) of Mortgage Loan	Current UPB of Mortgage Loan(s)		
LTV DSCR	LTV and DSCR immediately prior to the proposed transaction ¹ :		
Most recent appraised value (Generally the original Appraisal)	LTV DSCR	LTV and DSCR immediately after the proposed transaction ¹ :	
Date of most recent appraisal	LTV DSCR		
Current Value of the entire Property immediately prior to the proposed transaction ¹	Current Value of the portion of the Property to be released immediately prior to the proposed transaction ²		
Basis for current value of the entire Property (i.e., most recent Appraisal, Direct Cap Method including Cap Rate and NCF) ¹	Basis for current value of the portion of Property to be released ²		

¹ The LTV and DSCR calculations above must be based on Fannie Mae guidance in Part III of the Guide. The NCF must be based on the most recently-submitted Form 4254 (or its equivalent), and the NCF must be used in calculating the “immediately prior” and “immediately after” DSCR, and the Direct Cap Method for deriving the LTV. In determining the “immediately prior” and “immediately after” LTV, the Servicer may use a broker's opinion of value, the most recent Appraisal, or the Servicer's estimate of value using the Direct Cap Method supported by market cap rates and sales comparables. If vacant land which does not generate any income is being released, the DSCR and the LTV immediately prior to the condemnation and immediately after will be the same.

² Include the value of the land and Improvements to be taken by the condemnation or conveyance in lieu of condemnation. Generally, the amount of the condemnation award will be used as the value. Although unimproved land does not factor into the Fannie Mae calculation to determine the maximum loan size, it does have value for tax and accounting purposes.

The Servicer must send the completed Form 4636.C through the MAMP for review, and Fannie Mae Counsel will be engaged.
4	Is the condemnation a result of or will it cause a zoning violation, health code violation, or building code violation?	Yes No	If "Yes," notify Multifamily Asset Management immediately.
5	<p>Would the condemnation cause the DSCR of the Mortgage Loan to be less than the lesser of:</p> <p>(a) the Underwritten DSCR of the Mortgage Loan; or</p> <p>(b) the DSCR of the Mortgage Loan immediately before the condemnation?</p>	Yes No	If "Yes", submit a copy of the Borrower's pro forma income statement and the Servicer's analysis of the pro forma.

7	Would there be a material difference (greater than 10%) between the current market value of the Property and the expected market value of the Property after the condemnation? ³	Yes No	<p>If "Yes", state the difference and submit a copy of the most recent Appraisal or value estimate:</p>
			Difference
8	Would the LTV for the Mortgage Loan after the condemnation be higher than the original Underwritten LTV?	Yes No	If "Yes", submit a copy of the most recent Appraisal or documentation related to the change in Property value.

15	Would the condemnation result in a prepayment of 50% or more of the UPB of the Mortgage Loan?	Yes No	If "Yes", contact Multifamily Asset Management immediately.
16	Would the condemnation cause the UPB of the Mortgage Loan to exceed 100% of the value of the real estate (100% LTV)? For Senior Housing Properties with a Mortgage Loan Origination Date after January 1, 2021, you must calculate the real estate value in accordance with Footnote 4.	Yes No	If "Yes", please provide the values for the land and improvements; goodwill; business value; intangibles; and furniture, fixtures and equipment.

³ The 10% test is calculated at the time of the release of collateral. The calculation will generally be the value of the condemnation award divided by the current market value of the entire Property immediately prior to the condemnation or conveyance in lieu of condemnation.

⁴ Appraisals on Seniors Housing Properties generally have values that include land and improvements, goodwill, business value, intangibles; and furniture, fixtures and equipment. This LTV test must use only the value attributed to land and improvements. If a new Appraisal is obtained, use the value attributed to land and improvements in the new Appraisal. If a Direct Cap valuation approach is utilized, you must deduct value attributed to the total of goodwill, business value, intangibles and furniture, fixtures and equipment from the Direct Cap approach to calculate the value attributed to land and improvements. You may use the percentage of total value attributed to land and improvements found in the origination Appraisal to the current Direct Cap valuation to calculate the current land and improvement value.

For example, if the original appraisal attributed 85% of the value to land and improvements and 15% of the value to goodwill, business value, intangibles, and/ furniture, fixtures and equipment; assume the current value of the land and improvements is 85% of your new Direct Cap Value.
