

## Multifamily Asset Management Portal (MAMP) Release Notes – Release 14.0

Fannie Mae has implemented Multifamily Asset Management Portal (MAMP) Release 14.0 and new features are now available.

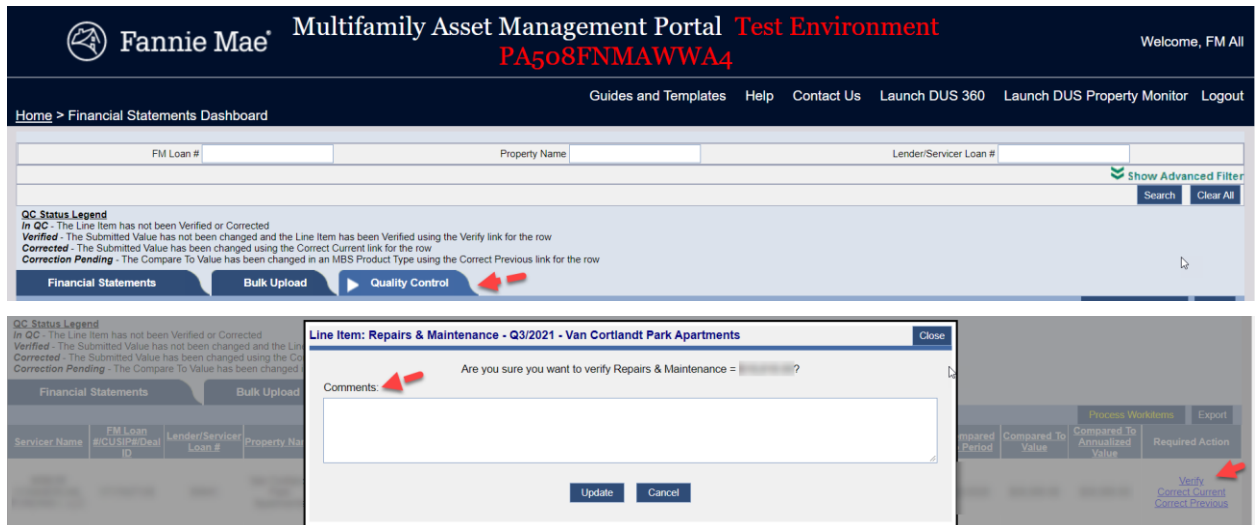

### Key Release Highlights:

- Enhanced the Financial Statements module to allow up to 500 characters when adding comments to Quality Control line items.
- Removed Master Request Type “Priority Borrower – Non-Delegated” from the Borrower Requests module.
- Corrected the Property Inspection MBA upload error related to the Photos tab.

### Detailed Description of Changes

#### Financial Statements Module:

- Users can now enter up to 500 characters in the Comments field when verifying or correcting financial data on the Quality Control tab.

#### Borrower Request Module:

- Master Request Type “Priority Borrower – Non-Delegated” has been removed as this option is now retired.
- This change will not impact any *existing* Borrower Requests, which will retain all current access, search, view, and edit functionality; however, users will not be able to create or duplicate any *new* requests with Master Request Type “Priority Borrower – Non-Delegated”.
