

## Multifamily Asset Management Portal (MAMP) Release Notes – Release 25.1.2

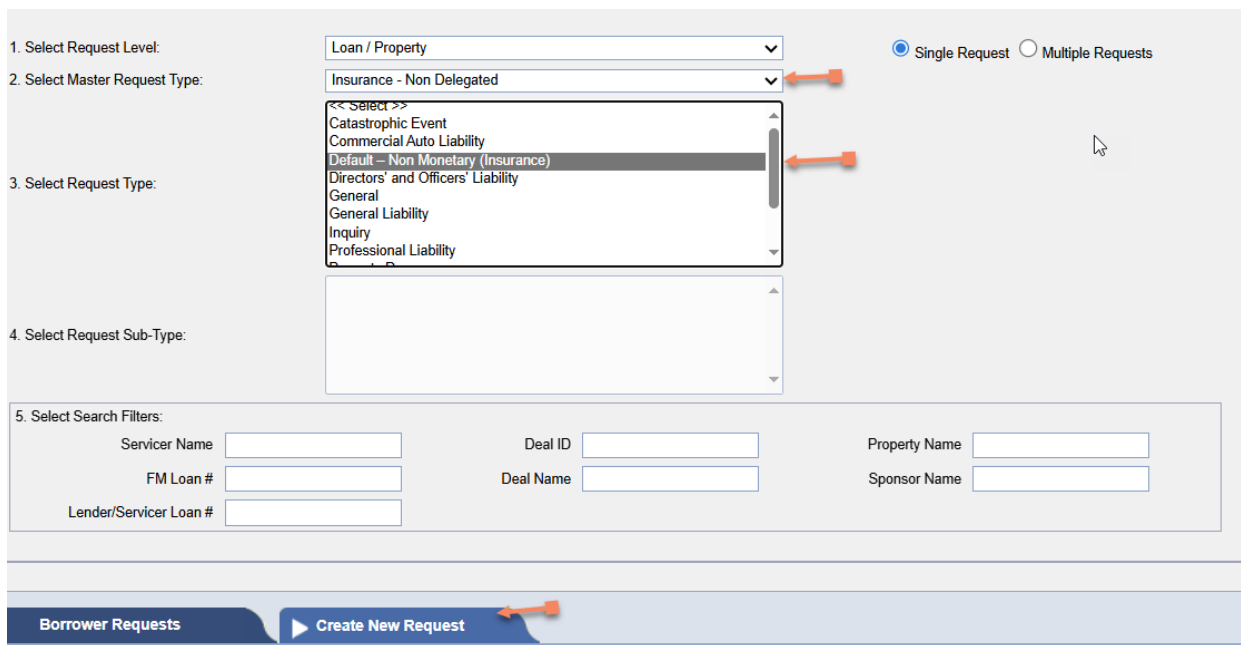

Fannie Mae has implemented Multifamily Asset Management Portal (MAMP) Release 25.1.2 and new features are now available.

### Key Release Highlights:

- Added a new “Default-Non Monetary (Insurance) Request Type” to the “Borrower Request” (BR) module under “Master Request Type – Insurance-Non Delegated”.

### Detail Description of Changes:

- Enhancements to “Borrower Requests (BR)” Module: A new request type, “Default – Non Monetary (Insurance)”, is now available under the master request type “Insurance – Non Delegated”.
  - This enhancement consolidates all Non-Delegated Insurance waiver requests under a single master request type, streamlining the waiver submission process for Servicers.
  - It also enables Servicers to clearly distinguish Insurance-related Non Monetary default requests from other submissions previously categorized under “Drawer Asset Management – Non Delegated”.
