Fannie Mae

DUS 360® Release Notes – Release 26.3.0

DUS 360® continues to enhance usability, efficiency, and reporting capabilities across key modules.

Lender Revaluation

Enhanced the Lender Revaluation workflow to improve efficiency, data quality, and document management.
Updates include:

- **Lender Revaluation document management** by enabling users to upload multiple documents for a selected Document Type, download all documents in a single action using the new Download All feature, and upload supporting documents directly from the Deal Request Details page
- **Lender Revaluation Property Details** now include percentage (%) indicators for Cap Rate fields and enhanced date validations that prevent invalid future date entries.

Tenant Site Lease Protections (TSLP)

Updated the TSLP Export/Upload template to support revised home count reporting requirements and improved column labeling for clearer and more consistent reporting.

Collateral Management Group (CMG)

Updated dashboard and reporting labels to improve inspection reporting clarity:

- **Overall Inspection Rating** renamed to **Previous Inspection Rating**
- **Inspection Date** renamed to **Previous Inspection Date**
- Added **Current Inspection Date**
- Added **Re-Inspection Rating**

Maturity Management Group (MMG)

Updated the Lender Status Report and associated upload/export templates to remove the 18-Month Borrower Maturity Letter tracking field, aligning reporting with recent Multifamily Guide updates.
