

DUS GATEWAY AUGUST UPDATES

Effective for all Mortgage Loans entering data in DUS Gateway® on or **before** August 2026, Fannie Mae will update the data requirements

The following updates will be made to the data requirements in DUS Gateway for all Mortgage Loans, which will also impact API calls.

Pre-Review Waiver Updates:

Starting August 7th, Pre-Review Waiver will have upcoming changes to the allowable values for Sub-Category, Descriptor, and Other Descriptor. The detailed changes have been shared with sufficient lead time to support your implementation and testing.

Streamline Treasury Lock (STL) Updates:

Starting August 20th, we will be enabling the **Streamlined Treasury Lock (STL)** functionality in DUS Gateway.

As part of the deal decisioning process, users will have the option to indicate whether the deal is using a Streamlined Treasury Lock. The picklist will default to **"No"**, so no action is required unless the deal is using STL. If the user selects **"Yes"**, they will be prompted to:

- Enter the **Treasury Lock Execution Date**
- Upload the 2 required supporting document:

Document Type	Document Category
Transaction Review	Streamlined Treasury Lock Agreement
	Streamlined Treasury Lock Trade Sheet
